RANKING & AWARDS

ABOUT IIHMR //

MISSION

IIHMR is an institution dedicated to the improvement in standards of health through better management of health care and related programmes. It seeks through management research, training, consultation and institutional networking in a national and global perspective.

VISION

IIHMR is a premier institute in health management education, training, research, program management and consulting in the health care sector globally. The Institute is known as a learning organization with its core values as quality, accountability, trust, transparency, sharing knowledge and information. The Institute aims to contribute for social equity and development through its commitment to support programs aiming poor and the deprived population.

THE INSTITUTE

International Institute of Health Management Research (IIHMR), Delhi was established in 2008 as a part of the Society for Indian Institute of Health Management Research, Jaipur. It was set up to bring international standards and bench marks to health management education in India.

The Institute undertakes education, training and research in hospital and health management. Although a young institute, IIHMR has carved out a niche for itself through its cutting edge curriculum, infrastructure facilities and accomplished faculty. It has achieved a place of pride in Hospital and Health Management, Planning and Research both at national and international level.

CENTRE OF EXCELLENCE

- ✓ Centre for Climate, Environment, Disaster and Health (CCEDH)

The aesthetically designed and magnificently built campus of IIHMR is located in Dwarka, New Delhi. The infrastructure as well as the facilities are at par with international standards and meet all academic and administrative requirements. The well-lit spacious air-conditioned classrooms equipped with audio-visual facilities create an atmosphere conducive to learning. The library of the Institute is equipped with the latest books, journals and magazines of national and international standards that are required for academic as well as research activities. The computer centre of the Institute is a state-of-the-art facility and uses technologies to provide a competitive advantage to both its faculty as well as the students in core areas of education and research. Three large air-conditioned conference halls provide adequate space to host national and international conferences, seminars and workshops within the Institute. Other facilities include individual rooms for the faculty, gymnasium, tennis court, mini amphitheatre, centralized air-conditioning system and a car parking lot. The Institute also has a spacious and well-equipped cafeteria and a guesthouse for visiting guests and dignitaries.

"The library has a rich collection of books, health encyclopaedia, reference material and national and international journals related to Hospital Management, Health Management and Health Information Technology Management, Education, Women Empowerment, Leadership, Management Information Systems, Quality Assurance, Health Economics and Finance, Public Health Management, Population Sciences, Research Methodology, Biostatistics, Sociology, Economics, Computer Science & Information Technology, Health Insurance, Project Management etc. besides a sizeable collection of case studies, dissertation and academic reports. The library also includes Kindle Reader, CD-DVDs, E-Databases; ProQuest, J-Gate, Indiatat, EBSCO and 213,748 e-Books (titles) on the multidisciplinary subject. To enhance the academic integrity and streamline through Anti-Plagiarism Software "TURNITIN".

FROM DIRECTOR'S DESK //

Dr. Sutapa B. Neogi
Director, IIHMR-Delhi

Dear Friends and Prospective Students,

Welcome to the International Institute of Health Management Research (IIHMR)-Delhi!

Professional education is a dynamic field. IIHMR focuses on imparting its core values – Quality, Accountability, Trust, Transparency and Knowledge sharing to its students. As an Institute, we believe that education is the passport to the future, for tomorrow belongs to those who prepare for it today. It is an investment that would pay rich dividends in the years to come. The core courses are covered in the first year. Based on the aptitude and interest, they can specialize in health management or hospital management or health information technology in the second year of the course.

Healthcare industry is undergoing a rapid change. More and more management concepts are being incorporated into the health sector. The changing socio-political scenario, quantum leaps in technology, economic development, changes in epidemiology are some factors, which have brought us to the new horizons. Keeping this in mind, we have blended analytical insights, quantitative abilities and real time field experience into various courses. We regularly update our courses to incorporate the feedback from our alumni and industry. Our Institute has also been awarded the “Six Sigma Best Healthcare Management Institute of the year 2015” and MBA equivalence by Association of Indian Universities.

The healthcare sector requires technical, managerial, social and diplomatic skills. Our faculty and students, through their dedicated efforts have strived towards this goal. Added to this, we have incorporated the dynamism of real world by having linkages to industry, government sector and business houses within and outside India. The students are exposed to the real world through summer internship, dissertation and invited national and international experts. We groom our students to contribute to the healthcare industry effectively and do justice to the profession, however challenging the role may be. Our Institute is guided by renowned experts who are member of its management board, governing board and various committees. We at IIHMR, Delhi truly believe in a “Global Thinking with Local Action” that have gone into transforming the students to have the ‘right attitude’ to meet expectations in healthcare sector.

Dr Sumesh Kumar

Associate Dean (Academics & Student Affairs)
International Institute of Health Management Research
New Delhi

MESSAGE FROM THE DEAN //

Healthcare sector is one of the fastest growing sectors in the country. The growth expectations are even higher in the near future with more government and private spending in this sector. Apart from doctors, nurses, paramedics, pharmacists, there is a need of professionals who can manage different segments of the healthcare sector, and this is where International Institute of Health Management Research (IIHMR), New Delhi contributes. Management is required in each and every sector and healthcare sector is no exception. IIHMR provides two years full time program in Health and Hospital Management approved by AICTE and accredited by National Board of Accreditation and Association of Indian Universities.

We introduced Fellowship Program in Management (FPM) at IIHMR, Delhi specially designed for individuals working in Healthcare Industry, Government, and Social Sector and interested in pursuing research in the health sector.

Management education is going through a paradigm shift with changing technology, new methods of learning, industry specific curriculum and rapid innovations. IIHMR Delhi is paving the way of this paradigm shift in the management education with excellent peer learning environment powered with world class infrastructure in a vibrant campus situated in one of the best localities in the national capital.

During our academic program, we not only prepare skilled professionals but inculcate values that make our students competent and versatile in healthcare sector. We bank on the proper blend of technical and soft skills in our students based on which they become leaders in their respective fields. IIHMR Delhi proud to have produced more than one thousand such healthcare leaders since its inception.

One of the core strengths of IIHMR Delhi is very experienced and dynamic faculty members. Their quality teaching, research orientation, training and mentorship consistently guide the students to achieve their goals. Students get hands-on-experience during their internship and dissertation which is part of academic curriculum under supervision of industry experts and IIHMR faculty members.

IIHMR Delhi could be a choice for those who really want to excel their career in healthcare management, those who would like to explore international academic standards, and for those who are committed to improve healthcare research.

MESSAGE FROM THE DEAN //

Ms. Divya Aggarwal

Associate Dean (Admission, Accreditation and Marketing)

IIHMR Delhi

Dear Students,

Since 2008, we are providing experiential healthcare management education. Our sole mission is helping students to become “competent healthcare managers who are also principled value-based leaders”. We have succeeded in our mission by embracing a 100% interactive educational philosophy, which is practiced organisation-wide - by students and faculty. Alumni and healthcare leaders holding managerial and leadership positions in various reputed organizations lend a supporting hand in this endeavour.

We are committed to providing world-class healthcare management education. Thus, our institute offers a brilliant management educational programme that is recognised across the country. IIHMR Delhi has been accredited by NBA and AIU has recognized the post graduate diploma being awarded by IIHMR Delhi, as equivalent to MBA which endorses about the quality and standards of excellence. Admission to these programmes is strictly on merit basis, which has helped us attain the position to become “most reliable healthcare management school in Delhi”.

At IIHMR, students learn from faculty who are educated in renowned educational institutions and carry extensive knowledge both of industry and academia. Our faculty members are excellent in teaching and research, and regularly publish in top academic journals. They bring innovation and diversity to the classroom, which helps us deliver memorable learning experiences to students. In addition to that, students also get chance to interact with industry specialists and alumni, who help broaden their understanding about various healthcare concepts through their own experiences.

Our educational program offers a solid foundation of healthcare management education, and promises a hands-on learning experience. We use case studies, experiential learning, role plays and simulation to enrich classroom learning experiences of our students. Additionally, students are encouraged to organize and participate in conferences and various student-driven activities organized on campus as well as in other leading B-Schools throughout the year.

Year on year the number of organizations visiting the campus for recruitment is ever increasing. All recruiters readily agree on a fact that IIHMR students not only possess an ability to perform in challenging environments but also have a sharp sense to identify opportunities, and have positive attitude and fire in belly to excel.

Indeed, IIHMR is an exciting healthcare management institute to study and shape your future. I would like to invite all aspiring management students who are interested in practical healthcare management education to join us for a life changing experience.

ELECTIVE COURSES

ENTREPRENEURSHIP | HEALTHCARE ANALYTICS | EXCEL SKILLS FOR BUSINESS ESSENTIALS

COURSE	DURATION
Fellowship Programme in Management (FPM)	3 Years
Executive Program on Hospital Management	11 Months
Executive Post Graduate Diploma in Public Health Financial Management	1 Year
Certificate Course - Supply Chain Management in Health Institutions in Developing Countries	3 Months

At the end of the first year each student works with an organization on a project for a period of a minimum of eight weeks. The objective is to allow students an intense day-to-day interaction with organizations. Summer Training provides exposure to the student in the functioning of an organization in real time. It also helps students to develop managerial skills, competencies and facilitates an informed career choice by the students. At the end of summer training, they will be assessed on the basis of their performance during the period by the way of a report and poster presentation.

All students are required to make a dissertation in their area of interest. The dissertation will include a critical review of literature pertaining to the specific area of interest, data collection and analysis of the selected problem, besides other components. The dissertation must be completed in the second year to achieve the award of the programme.

EVALUATION PROCESS

Evaluation of a student's performance is a continuous process. To be recommended for the award of the Post Graduate Diploma in Hospital and Health Management, students are required to achieve a prescribed standard in the total course work, including both mid-term and term examinations.

The following are the requirements for passing the examination and award of the PGDM (Hospital and Health Management) :-

ATTENDANCE

Every student is expected to attend all the classes (not less than 75% in any case). No unauthorized absence from field placement is permitted.

EXAMINATION

A student's performance will be judged in the mid-term and the end-term examinations. Each subject carries a maximum of 100 marks. The mid-term exam includes assignments, class participation and written exams, whereas the end-term includes written exams. To clear a subject every student has to score a minimum of 50% marks.

SUMMER TRAINING

Summer training is an integral part of the first year of course. Every student is required to submit a summer training report. The students are assessed on the basis of their performance during summer training.

DISSERTATION AND INTERNSHIP

Every student is required to undergo dissertation and internship at the end of second year course and submit a report. The students are assessed on the basis of their performance in the dissertation and internship.

ALUMNI Words

On completion of the programme, students become part of a network of alumni. An alumni reunion event is held at the IIHMR Delhi at regular intervals.

Dr. Nupur Garg, WHO, Batch: 2018-20

IIHMR Delhi provided me the platform where I can transform my dreams into reality. The faculty and the environment is inclusive and supports growth and learning. My heartfelt thanks to all the teachers, mentors and friends in helping me to achieve my goal.

Dr. Akriti Jamwal, D Chikitsa, Batch: 2018-20

IIHMR, Delhi provided me with a conducive environment where I could amp up my skills as healthcare professionals. I would like to show my gratitude to the faculty and all the members of the IIHMR, Delhi for making this possible.

Dr. Vivek Bhatnagar, Ministry of Health & Family Welfare, Batch: 2011-13

I stepped into IIHMR as an aspirant and enthusiast of social welfare and with a strong desire to bring a change in the health status of the society. I must confess that IIHMR gave me the knowledge and preparedness for not only that, but so much more. With all the exposure coming through truly world class teaching and globally active faculty, the perspective and orientation I acquired opened the horizons for me.

Today when I'm engaged as a Senior Consultant in the Central Ministry of Health and Family Welfare, I see majority of the policy notes, almost every reform that happens through the Central and State governments, runs through the eyes and brains of IIHMR alumni. Even during the worst affected phases through the COVID-19 pandemic, IIHMR alumni have worked 24x7 to support most efficient and globally acclaimed response of the country. The institute is doing tremendous service to the nation and I wish more repute keeps flowing in for my alma mater in the times to come.

Dr. Ashish Malakar, Luit Hospitals Pvt Ltd. a Licensee of Henry Ford Health System, USA, Batch 2008-2010

I take the opportunity to thank and express my sincere gratitude toward IIHMR-D, for providing me with the distinguished and scholastic education in the field of Hospital and Healthcare Management. With a deep sense of accomplishment, I would like to state that brand IIHMR creates institution's by developing and shaping careers of individuals. In the healthcare sector IIHMR's contribution is unparalleled and shall remain so, because of the enterprising spirit that it nurtures and the spearheading ideology presented by the Management.

Mr. Naveen Vashist, Emoha Elder Care, Batch 2010-12

I was fortunate to get admission at IIHMR in 2010 between a competition of 1700 students for handful of seats. Being a non-medicos it was a challenging journey and curriculum & schedule made it very hectic. Our faculty made it little light with engaging classes and group activities that gave me different way to deal with demanding situations. We were not only trained to be good professionals but also leaders. Hard work and knowledge capsules made us complete package and we all 120 batch mates got placed in good organization. I got placed in my dream organization where I am still working after 7 years.

Ms. Daimee Sethi, ZS Associate, Batch 2016-18

IIHMR Delhi was a platform that combined two of my ambitions, wanting to pursue MBA and wishing to do something in the healthcare sector. PGDHM concentrated on the general management aspect as well as the specific application of those concepts in the healthcare field. It also gave me the opportunity to learn about the intricacies involved in the running of a hospital. The course at IIHMR is well structured with dedicated faculty to guide students. Being from a non-medical background myself, I was initially concerned about the biology and healthcare related subjects, however, my concerns were taken care of by the teaching style at IIHMR.

Ms. Rashi Singhal, Deloitte, Batch 2018-20

IIHMR is a wonderful place to learn intricacies of health management and related researches. The academic programs and the knowledge providers gave us a holistic overview of different aspects of the subjects. The mentor mentee relationship is unique in a way that motivates students to excel in life and face day to day difficulties of academic as well as professional life. It was enriching academic experience that enabled me to secure placement with Deloitte.

PLACEMENT

During recent years, the Hospital, Health and Health Information Technology sectors have emerged as new avenues for the employment of management professionals. Large corporate and public sector hospitals, international, bilateral and national health care organisations and health insurance companies have been approaching IIMR, New Delhi for qualified and well-groomed healthcare managers. The course prepares graduates for exciting careers in such organisations. The Institute has a Placement Cell which works under the Placement Committee comprising of faculty and student representatives. The activities of the Placement Cell primarily revolve around achieving successful:

The scholarship would be given as a fee waiver in 3rd instalment fee payable for PGDM.

UNIFORM

All students are mandatorily required to wear prescribed uniform as per the norms of the institute.

ZERO TOLERANCE TO RAGGING

The Institute observes a "Zero tolerance" policy towards ragging and takes a serious view of such offences. It can lead to the expulsion of a student found engaging in harassing or maltreating a fresher. Any student accused of ragging would be given an opportunity to explain his/her conduct and if found guilty, would be summarily expelled from the Institute.

RESEARCH & CONSULTANCY

IIHMR Delhi has a rich research portfolio. The Institute conducts studies which have a bearing to improve the health system, ranging from policy to programme to community. The Institute conducts evaluation studies, intervention studies and operations research for national and state government, non-government organizations as well as UN agencies such as WHO, UNICEF etc. The multi-disciplinary faculty members bring excellent combination of research competencies that is critical to successfully carrying out evidence-driven and policy-relevant research. The focus area for research are Human Resource Management, Strategic Management and Leadership, Healthcare Financing, Health Economics, Healthcare Marketing, Health Policy and Health Administration, Public Health Management, Hospital Management and Quality Assurance, Logistic and Supply Chain Management, Health Information Technology, Demography/Population Studies, Epidemiology, International Health, Climate change and Environmental Health, Reproductive, Maternal, Newborn, Child and Adolescent Health, Communicable and Non-communicable Diseases and Urban Health.

The Institute offers consultancy to hospitals and healthcare organizations to streamline the workflow and operations by developing Standard Operating Procedures (SOPs), providing technical assistance to government's programme for making district health action plans and quality assurance to name a few. We strive to make research beneficial and useful to the community through our advocacy efforts. Research creates knowledge that finds a special space in our academic programs. At IIHMR, we wish to stimulate a seamless transition between academics and research policy.

MANAGEMENT DEVELOPMENT PROGRAMME

The growing complexities of health sector demand continuing capacity building activities in all health organizations.

Continuing education and training have become vital for sustenance of any organization. IIHMR Delhi since its inception has been involved in training national/ international function areas in health/hospitals/ healthcare IT. The institute has a sprawling campus and renowned faculty in different subjects.

Our Training programs are focused on creating wealth of knowledge and expertise in the key domains of Public Health, Hospital Administration and Healthcare IT in a professional manner.

Our training basket is comprised of customized and specialized programmes as per the needs of the learners and these are equally enriching for both freshers as well as experienced trainees. We upheld the invaluable assentation of Michel Legrand, who said "the more I live, the more I learn. The more I learn, the more I realize, the less I know". With such value base we have designed wide range of training programmes that aims to create competencies amongst trainees and ensure they are equipped to perform the job efficiently and smoothly in their organizations.

Some of the special features of our trainings are -

- From beginner to advanced topics
- Helps to grow your capabilities and results
- Experiential, practical, impactful programs

- Effective in-person or virtual customized training
- Master trainers helps develop mastery in advanced skills
- Short training programs of three to five days online/class room study.

With the legacy of over three decades we have been providing training and contributing not only in the growth of Health Care professionals in India but also catering to the international participants from various countries such as Bangladesh, Afghanistan, Sri Lanka, Myanmar, Bhutan, Africa and others. The institute also has state-of-art training facilities – training halls, guest house facilities, IT lab, library, Wi-Fi and healthy food options in our dining hall.

To ensure quality of programs , the subject experts review the training needs of the different organizations before finalizing the training contents. Training modules are developed and updated from time to time based on current knowledge and information on that subject.

To measure the impact of usefulness of the training to the participants, regular pre-test and post-test are given and analyzed.

Feedback /comments /suggestions are gathered from the participants on various aspects of the training provided to so far. IIHMR Delhi has trained 5000 (appx.) health participants.

FACULTY & STAFF

MISSION

CCEDH is an initiative aimed at addressing the health impacts of climate change environment and disaster in the developing world. It seeks to accomplish this through sustainable solutions emanating from academics, research, training, consultation and advocacy in a national and global perspective.

VISION

CCEDH is a pioneer in environmental health with a strong focus on developing countries in South and South-East Asia. It is known for evidence-based research having implications for policy, programs and people. The Centre has a strong commitment towards the most vulnerable groups, that is, women, children, urban poor and indigenous population thus contributing to environmental justice. CCEDH's work takes place in the "real world" with lessons learnt by "learning by doing" and replicated globally wherever found suitable.

FUNCTIONING

The focal point for the Centre is a Convenor who works with faculty at the Institute and is advised by senior management. Faculty at the Centre are subject matter experts including but not limited to public health, disaster management, climate policy, health information technology/CIS and other related fields.

CoE

The centre has been designated as a Centre of Excellence(CoE) on Vulnerability Need Assessment, National Programme on Climate Change and Human Health, Ministry of Health and Family Welfare (MoHFW), Govt. of India

CONVENOR

Dr. Nitish Dogra

Convenor, CCEH & Associate Professor

MEMBERS

Dr. Anandhi Ramachandran
Associate Professor

Dr. Sumant Swain
Assistant Professor

FACULTY

The Institute has a multi-disciplinary team of faculty who are primarily involved in teaching and also engaged in research, training and consultation activities. The faculty strives to create an exciting learning environment that prepares the PGDHM students to tackle complex issues and develop creative solutions to critical problems. All faculty members are involved in conducting research and conduct in service training sponsored by WHO, DFID, ICMR, EC, NHM and ESI etc. Participation in these programmes enables IIMR faculty members to equip themselves to provide a wider view of the globalized world with respect to managing and delivering healthcare.

The faculty members are also involved in student activities through various committees like Academic Committee, Placement Committee, Anti Ragging Committee, Seminar Committee, Conference Committee, Student Grievance Committee, Library Committee etc. respect to managing and delivering healthcare.

NATIONAL AND INTERNATIONAL CONFERENCE

Faculty achievement: 53 Research Papers published & presented at international and national conference.

Faculty members have been invited more than as key note speakers in 12 National and International conferences. They actively present papers & participate in various conferences.

GUEST LECTURES

Guest Lecture Series is a unique program of inspirational talks by eminent speakers from across the globe to enhance the competitive strength of our management students. The Series is committed to seeking out and providing a platform for spreading powerful ideologies relevant to the growing competitive market. The various thought-provoking conversation and free flow of ideas. The series seeks to represent a diverse set of views and are especially focused on facing the current challenging norms and opportunities. Our students have a great opportunity for interacting with leading think tanks.
