Administrators

Finance Managers in
Healthcare

Learning Experience

Market Landscape

\$1.2 trillion

Projected global healthcare profit pools by 2027, expanding at a 7% CAGR as efficiency, technology adoption, and margin optimization accelerate across providers and payers.

12% CAGR

Healthcare services and technology profit pools are expected to be the fastest-growing segment through 2027, driven by software, data, and analytics that improve financial performance.

11% CAGR

Health system profit pools are forecast to rebound through cost containment, site-of-care shifts, and reimbursement rate increases, creating strong demand for finance leaders.

74%

of global deaths are from NCDs, intensifying the need for cost-effective financing, budgeting, and economic evaluations in public health programs.
