ABOUT IIHMR

International Institute of Health Management Research (IIHMR), Delhi was established in 2008 as a part of the Society for Indian Institute of Health Management Research, Jaipur. It was set up to bring international standards and benchmarks to health management education in India.

The Institute undertakes education, training and research in hospital and health management. Although a young institute, IIHMR has carved out a niche for itself through its cutting-edge curriculum, infrastructure facilities and accomplished faculty. It has achieved a place of pride in Hospital and Health Management, Planning and Research both at national and international level.

MISSION

IIHMR is an institution dedicated to the improvement in standards of health through better management of health care and related programmes. It seeks through management research, training, consultation and institutional networking in a national and global perspective.

VISION

IIHMR is a premier institute in health management education, training, research, program management and consulting in the health care sector globally. The Institute is known as a learning organization with its core values as quality, accountability, trust, transparency, sharing knowledge and information. The Institute aims to contribute for social equity and development through its commitment to support programs aiming poor and the deprived population.

THE CAMPUS

The aesthetically designed & magnificently built campus of IIHMR is located in Dwarka, New Delhi. The infrastructure as well as the facilities are at par with international standards and meet all academic & administrative requirements. The well-lit spacious air-conditioned classrooms equipped with audio-visual facilities create an atmosphere conducive to learning. The library of the Institute is equipped with the latest books, journals and magazines of national and international standards that are required for academic as well as research activities. The computer centre of the Institute is a state-of-the-art facility and uses technologies to provide a competitive advantage to both its faculty as well as the students in core areas of education and research. Three large air-conditioned conference halls provide adequate space to host national and international conferences, seminars and workshops within the Institute. Other facilities include individual rooms for the faculty, gymnasium, badminton court, mini-Amphitheatre, centralized air-conditioning system and a car parking lot. The Institute also has a spacious and well-equipped cafeteria and a guesthouse for visiting guests and dignitaries.

THE LIBRARY

"The library has a rich collection of books, health encyclopedia, reference material and national and international journals related to Hospital Management, Health Management and Health Information Technology Management, Education, Women Empowerment, Leadership, Management Information Systems, Quality Assurance, Health Economics and Finance, Public Health Management, Population Sciences, Research Methodology, Biostatistics, Sociology, Economics, Computer Science & Information Technology, Health Insurance, Project Management etc. besides a sizeable collection of case studies, dissertation and academic reports. The library also includes Kindle Reader, CD-DVDs, E-Databases; ProQuest, J-Gate, Indiastat, EBSCO and 226,014 e-Books (titles) on the multidisciplinary subject. To enhance the academic integrity and streamline through Anti-Plagiarism Software "TURNITIN". IIHMR Delhi Library provides Remote Access Service with federated search of most its online resources subscribed/ purchased by the library. The Knimbus Remote Access tool allow the library users to search and access the online resources from any remote location with internet connection outside Institute Campus. The library has a Digital Institutional Repository which is a platform for teachers, researcher scholars, students, and staff to share their scholarly work with the larger community.

Post Graduate Certificate in Management (PGCM) Logistics & Supply Chain Management

The Institute offers one-year full-time Post Graduate Certificate in Management (PGCM) Logistics & Supply Chain Management program, Approved by AICTE (All India Council for Technical Education). Logistics and supply chain management are essential to carry out any health care program/activities. It deals with the flow of medical supplies and services from manufacturer to patients i.e., the point of consumption. Keeping in view the sensitivity of materials responsible for life and death, the supply chain management in health care requires stringent measures for manufacture, transportation, warehousing and distribution to the point of use. Keeping in view the above said, the module deals with day-to-day problems in supply chain management, forecasting of materials requirement at primary health care and secondary health care levels, transportation and warehousing of materials, inventory control and cost containment. It also deals with hospital supplies, maintenance of medical equipment. To achieve this objective, a course in logistics and supply chain management with an overall goal to provide a fundamental understanding of key issues related to quality control of materials, legal and ethical issues, measuring materials management performance in supply chain has been designed. The details of the programme learning out comes, programme structure, courses, credits, teaching-learning methods, and examinations/assessments are given below.

PROGRAMME STRUCTURE

The Post Graduate Diploma in Logistics & Supply Chain Management is for a duration of one-year distributed into two semesters. The medium of instruction/study is English.

EVALUATION PROCESS

Evaluation of a student's performance is a continuous process. To be recommended for the award of the PGCM (Logistics and Supply Chain Management), students are required to achieve a prescribed standard in the total course work, including both internal and end term examinations. The following are the requirements for passing the examination and award of the PGCM (Logistics and Supply Chain Management) :-

ATTENDANCE

Every student is expected to attend all the classes (not less than 75% in any case).

EXAMINATION

A student's performance will be judged in the internal and the end term examinations. Each subject carries a maximum of 100 marks. The internal exam includes assignments, class participation and written exams, whereas the end-term includes written exams. To clear a subject every student has to score a minimum of 50% marks in internal and end term examinations.

DISSERTATION

Every student is required to undergo dissertation in the course and submit a report. The students are assessed on the basis of their performance in the dissertation and internship.
