- ✓ Climate Change and Environmental Health

## CAPABILITIES

- ✓ Management Research, Education & Training
- ✓ Planning, Designing and Conducting Management Training for Health Professionals
- ✓ Institutional Capacity Development & Networking
- ✓ Project Planning and Management
- ✓ Operations Research and Evaluation
- ✓ Economic and Financial Analysis
- ✓ Survey Research
- ✓ Impact assessment
- ✓ Quality Assurance
- ✓ Health Sector Reforms
- ✓ Programme Evaluation
- ✓ Health Information Technology

# MESSAGE FROM THE DIRECTOR'S DESK

I am delighted to write about the International Institute of Health Management Research (IIHMR), Delhi, which over the years has emerged as an institute of repute universally for producing competent, socially conscious, and vibrant top-class healthcare management professionals. Our top-ranked and innovative Post Graduation programmes with specialisation in Health Management, Hospital Management and Health Information Technology Management is well recognized in the country because it meets the existing demands and challenges of healthcare sector, as evident from our NAAC 'A' accreditation. The institute has marked a name for itself through its cutting-edge curriculum, infrastructure facilities and accomplished multi-disciplinary faculty. Our main aim is to prepare and train students with up-to-date professional and leadership skills for enhancing the healthcare and hospital scenario of the country. IIHMR-Delhi equips its students with a strong managerial and technical foundation for careers in consulting, hospital management, healthcare systems, healthcare quality management, health insurance and healthcare information technology, business analysis and transformation. The Institute offers a judicious mix of theoretical and experiential learning for holistic development of students. Besides the academics, students at IIHMR also excel in co-curricular activities.

MBBS, MD (NB (AI)),  
NBHMS

The Institute offers a two-year full-time Post Graduate programme in Hospital and Health Management approved by the All-India Council for Technical Education (AICTE) and accredited by National Board of Accreditation (NBA). Our program is recognized as equivalent to the MBA degree of Indian Universities by the Association of Indian Universities (AIU). Admissions to the PGDM programmes are based on merit through strict selection process. Our students come from diverse educational disciplines such as allopathy, dentistry, AYUSH systems, pharmacy, nursing, science, commerce and social sciences. Our graduates are well-matched for the ever-changing healthcare sector and evolving social milieu. Our programmes equip the students with efficient managerial and leadership roles in the their respective fields.

Like every year, another batch of management graduates specialized in health, hospital and health informatics became qualified to shoulder professional responsibilities to meet the rapidly expanding health sector needs in the country. Their successful placements in the healthcare arena at strategic positions is an indicator of our growing community. The Alumni of the institute are making significant contribution to health sector in all parts of the country as well as in other countries.

I am delighted to present the 2022-2024 batch of talented, socially conscientious and dedicated students who will graduate in June, 2024. I invite you to engage our graduates to enhance the quality and productivity of healthcare systems and its management. I am confident that they will make meaningful contribution to your organisation and society.

I wish the students all the very best and great career ahead!

**- Dr. Sutapa B. Neogi**  
**Director**

# MESSAGE FROM THE ASSOCIATE DEAN

Healthcare sector is one of the fastest growing sectors in the country. The growth expectations are bound to rise in the near future with more government and private players spending in this sector. Apart from doctors, nurses, pharmacists, paramedics there is a requisition of professionals who can manage different segments of the healthcare sector, and this is where International Institute of Health Management Research (IIHMR), New Delhi contributes. Management is required in each and every sector and healthcare sector is no exception. IIHMR provides two years full time program in Health and Hospital Management approved by AICTE and accredited by National Board of Accreditation and Association of Indian Universities.

Management education is going through a paradigm shift with changing technology, new methods of learning, industry specific curriculum and rapid innovations. IIHMR Delhi is paving the way of this paradigm shift in the management education with excellent peer learning environment powered with world class infrastructure in a vibrant campus situated in one of the best localities in the national capital.

During our academic program, we not only prepare skilled professionals but inculcate values that make our students competent and versatile in healthcare sector. We bank on the proper blend of technical and soft skills in our students based on which they become leaders in their respective fields. IIHMR Delhi proud to have produced more than twelve hundred such healthcare leaders since its inception.

One of the core strengths of IIHMR Delhi is very experienced and dynamic faculty members. Their quality teaching, research orientation, training and mentorship consistently guide the students to achieve their goals. Students get hands-on-experience during their internship and dissertation which is part of academic curriculum under supervision of industry experts and IIHMR faculty members.

We work persistently to make our students ready as per industry requirement and provide them top career opportunities. The meticulous academic and professional training at IIHMR, Delhi help students to do extremely well in various challenging situations with ease and confidence. I am sure that these young professionals would certainly be an asset for your organization with their excellent technical and managerial skills.

**- Dr Sumesh Kumar**  
**Associate Dean (Academics & Student Affairs)**  
**International Institute of Health Management Research**  
**New Delhi**

# CONVENER MESSAGE

International Institute of Health Management Research, Delhi (IIHMR, Delhi) was established in 2008 as a part of the Society for Indian Institute of Health Management Research, Jaipur. It was set up to bring international standards and benchmarks to health management education in India. The core courses are covered in the first year and in second year specialization is opted by the students in health management, hospital management or health information technology.

The Placement Cell of IIHMR Delhi serves as an interface between the students and the Healthcare Industry. Apart from bringing various healthcare companies to the campus, the placement cell also organizes training workshops, symposiums etc. by industry experts for conducting students' sessions to help them get industry ready and learn about work culture ethics. We not only focus towards academic goals of students but also at the ethical and moral achievement.

For us, Students are like moisten soil and teachers are the potters, who provide them the best shape to build their career. We equip our students with industry-based training and make them industry-ready by inviting professionals. Throughout the academic programs multiple practical exposures are provided to students by means of conducting interactive sessions and organizing field visits, students undergo two-month summer training in the first year and three months dissertation at the end of second year. Students graduating from IIHMR Delhi are prepared to work in any sphere of the healthcare industry.

It gives us immense pleasure to invite your esteemed organization to be a part of our recruitment Programme. We will be happy to host you for 2022-24 batch and look forward to rich, successful and rewarding collaboration with your esteemed organization. We highly value our partnership with recruiters and remain committed to making your recruiting experience productive and positive.

**- Dr. Nidhi Yadav**  
Convener (Placement Cell)  
Associate Professor

# ABOUT PGDM (HOSPITAL & HEALTH MANAGEMENT) PROGRAM

## OBJECTIVE

The conceptual understanding and application of various techniques in modern management regarding health care facilities is the prime objective of the program. Thus, it makes students efficient in diagnosing and offering solutions to planning, building and managing health care organizations. Nevertheless, the program develop consultancy skills and teach use of latest technologies that are responsive to diverse clients in health sector.

## COURSE FRAMEWORK

The Institute offers a two-year full-time NBA accredited Postgraduate Program (equivalent to MBA by AIU) approved by AICTE and NBA accredited with specialization in Hospital Management, Health Management and Health Information Technology Management.

It is a forerunner education program which aims to develop trained professional managers with requisite skills in planning, implementation, operational management, diagnosing and problem solving, consultancy and entrepreneurship. Consequently, it prepares pupils to manage hospitals and healthcare institutions across the world, both in public and private sectors. Hence, supplying quality healthcare management professionals in respective field.

The program gives many star performers to the Institute and society. IIHMR students bore the palm in many inter-campus, intercontinental competitions in academic and non-academic activities. The Institute also have conducive approach towards entrepreneurship. One of our students started an NGO, which has been competitively getting funds and winning laurels for its work worldwide.

## INDUCTION COURSES

## INFRASTRUCTURE AT IIHMR

The aesthetically designed and magnificently built campus of IIHMR is located in Dwarka, New Delhi. The infrastructure as well as the facilities are at par with international standards and meet all academic and administrative requirements. The well-lit spacious air-conditioned classrooms equipped with audio-visual facilities create an atmosphere conducive to learning. The library of the Institute is equipped with the latest books, journals and magazines of national and international standards that are required for academic as well as research activities. The computer centre of the Institute is a state-of-the-art facility and uses technologies to provide a competitive advantage to both its faculty as well as the students in core areas of education and research. Three large air-conditioned conference halls provide adequate space to host national and international conferences, seminars and workshops within the Institute. Other facilities include individual rooms for the faculty, gymnasium, badminton court, mini-amphitheatre, centralized air-conditioning system and a car-parking lot. The Institute also has a spacious and well-equipped cafeteria and a guesthouse for visiting guests and dignitaries.

## COMPUTER CENTRE

The Computer Centre is equipped with all contemporary facilities to cater the needs of teaching as well as research activities of the institute. The use of modern technology provides a competitive edge to the institute in its core areas of education and research. The high quality bandwidth offers speed and uninterrupted internet connectivity from anywhere in the campus through the LAN and Wi-Fi facility.

The advanced computing facility and audio-visual aids with technically competent software and hardware professionals support the infrastructure. The Computer Centre acts as a central nervous system to ensure unhindered operations in the campus.

## LIBRARY

IIHMR Delhi library is a knowledge hub among the students, faculty, for academic and other research activities. The library's objective is to provide current research information carried out in healthcare, hospitals, Health IT, and other related areas. The library has a state-of-the-art collection of 8105 books, having 6025 unique titles in various fields such as Health Management, Hospital Administration, Health Economics and Finance, Public Health, Healthcare IT, General Management, MIS, Demography, Research Methodology and more.

Readers can borrow the required books and desired reading material as per library rules. The library provides user-friendly services and easy-open access facilities to the intellectuals. To focus on quality information, we receive over 68 National and International periodicals and magazines related to professional management and research. It gets six newspapers published around the globe, and library collection includes 510 CD-ROM and E-Databases from India and overseas, like Pro-Quest Health Management, Indiastat, and J-Gate Database, EBSCO host e-books and Ebrary. The library has digitally add-on of 234,608 eBooks. The healthcare industry is growing at a rapid pace and undergoing some of its most significant changes as the use of electronic health records increase. Designed for technologists or medical practitioners seeking to gain entry into the Field of healthcare information systems, Healthcare Information Technology (HIT) teaches the fundamentals of IT in healthcare. HIT provides the umbrella framework or describe the comprehensive management of health information across computerized systems and its secure exchange between consumers, providers, government and quality entities, and insures.

HIT plays in improving an organization's performance and competitive position along with the challenges, opportunities and trends that are influencing the delivery of healthcare. Raising healthcare expense along with concerns for patient safety have resulted in healthcare reform initiatives. Initiatives, which support the implementation of electronic health records, health information exchanges and a nationwide health information network. Broad and consistent utilization of HIT will: Improve health care quality or effectiveness; increase health care productivity or efficiency; prevent medical errors and increase health care accuracy and procedural correctness. It reduces health care costs; increase administrative efficiencies and healthcare work processes. Furthermore, HIT decreases paperwork and unproductive or idle work time; extend realtime communications of health informatics among healthcare professionals; and expand access affordable care.

### **The key components of Health Information Technology Management course are as follows:-**

- ✓ Basics of Data mining and Data warehousing
- ✓ Bioinformatics
- ✓ Clinical Information Systems
- ✓ Designing for Healthcare IT
- ✓ Health Information System Design
- ✓ Introduction to Healthcare IT and Information Standards
- ✓ Health Insurance and Managed Care
- ✓ Managing Databases
- ✓ Managing Healthcare IT Department and Implementation
- ✓ Programming language (through OOPs)
- ✓ Project Management Techniques
- ✓ Quality Assurance in Health IT
- ✓ Regulatory Aspects and monitoring in healthcare
- ✓ Requirements Management
- ✓ Elective Subjects:
- ✓ Entrepreneurship
- ✓ Business Ethics
- ✓ Healthcare Analytics

### **Choice Based Credit Course:-**

- ✓ Clinical Epidemiology
- ✓ Health Management Information System
- ✓ Tele Health and MiHealth

### **Elective / Value Added Courses**

**Ms. Aastha Khurana**

**Qualification** - Bachelor of Science (Botany)

**Experience (in months)**- 7 months
