

## **MANAGEMENT DEVELOPMENT PROGRAM ON NON COMMUNICABLE DISEASE PROGRAMME MANAGEMENT: DATA TO EVIDENCE FOR DECISION MAKING**

**Date November 30 – December 3, 2020 (1.30 PM - 5.30 PM)**

### **Contextual background:-**

The National Health Programmes of the country have made tremendous achievements in disease prevention and control. Nevertheless, the current epidemiological scenario calls for transformative changes and stresses on the need to usher in evidence based interventions to address programme issues at different levels. Non communicable diseases (NCDs) have taken over from Communicable diseases and Maternal and child health conditions as the major causes for population morbidity and mortality. India's National Programme for prevention and control of Cancer, Diabetes, Cardiovascular diseases and Stroke(NCPDCS) needs evidence based interventions which needs generation and analysis of programme data on a continuous basis. The Programme officers of the states have to possess competencies to generate evidence at various levels to provide key strategic information needed to influence and re-strategize the programme.

This training programme will seek to sensitize the NCD Programme Officers about the significance of utilizing programme data at local level and build competencies in developing and implementing a mixed method evaluation monitoring and evaluation framework.

## Learning Objectives

At the end of the training, the participant will have enhanced skills to devise a mixed method evaluation framework for health programmes as well as collect, analyze and disseminate NDC programme data.

### The specific objectives are:

- To induce Programme Managers to develop interest in continuous use and dissemination of programme data
- To enable programme managers to develop a mixed method programme evaluation protocol for health programmes
- To strengthen the skills of programme managers in collecting data using quantitative and qualitative techniques
- To reinforce ways to disseminate key information emerging from the evaluation to important stakeholders

## Benefits

The course will be beneficial to those who are associated at different levels in NPCDCS Programme management –especially those associated with programme implementation, monitoring and evaluation. It will enable participants to utilise quantitative and qualitative research methods to utilise and interpret programme data for evidence based decision making.

## Course Outline/Contents

- Importance of using programme data
- Developing a Programme Evaluation Framework – developing research questions and objectives, choosing appropriate research design, Sampling etc
- Quantitative and qualitative data collection techniques
- Analysis of quantitative and qualitative data
- Report writing
- Dissemination of evidence generated and lessons learnt

## Target Audience

The programme is designed for State Programme Coordinators/Officers, District Programme Officers, Monitoring and Evaluation Officers (of National Health Programmes) – in Government and NGOs

## Tools & Techniques

- Lecture discussions
- Case studies
- Hands on exercises for analysis of quantitative and qualitative data
- Assignments

## Resource Persons

Dr. Preetha G S is an Associate Professor in IIHMR. She did her MBBS from Government Medical College, Trivandrum and MD in Community Health Administration from the National Institute of Health and Family Welfare, New Delhi. She has led many research projects in public health – quantitative and qualitative, funded by national and international agencies. With more than two decades of clinical and programme experience, she plays a pivotal role in providing key inputs to research projects and activities of the institute. She has also published articles in national and international journals. In her earlier assignments, she has worked with Ministry of Health and Family Welfare (MoHFW) Government of India; NIHFW and United Nations Development Programme in various capacities

Dr. Vinay Tripathi, a PhD in Anthropology from University of Hyderabad, works as an Assistant Professor in IIHMR. He is armed with a rich experience in the field of research and development, having coordinated and evaluated different projects, both quantitative and qualitative in the areas of health, water and sanitation, education and rural development. This varied work experience has helped him gain insights and in depth understanding on the intricacies of project management. He has demonstrated expertise in managing and analyzing large datasets. He also teaches data management and analysis to students of Health and Hospital Management.

## Sector Experts

- Dr. Jagdish Kaur, Regional Advisor, Tobacco free Initiative, WHO SEARO
- Dr. Ritu Rana, Mission Head- Health, Helpage India
- Dr. Bipin K Gopal, Focal point for NCD, Government of Kerala

## == PARTICIPATION FEE ==

**National Participants:** INR 5,000/- plus 18% GST

**International Participants:** USD 100 plus 18% GST

- Online registration
- No refund of course fee but substitute allowed
